PORTLAND TRAIL BLAZERS

2023-24 YEARBOOK

SEASON 54

EST. 1970

"What is the group or activity that was most important to your recovery?"
"I made the right decision to get help."

"OTR turned my life around. I threw everything away for drugs and alcohol while living in Texas. I ended up in treatment in Vegas and nowhere to go upon discharge. I used to make six figures and now I had nothing. OTR was there for me and I was able to start my life over again."

"The staff was great. They taught me how to live my life sober and have fun at the same time. I ended up marrying an amazing woman who is in recovery as well. We bought a house 3 years ago together and currently remodeling it. This is the good life. I owe a lot of it to OTR. Thank you guys"

"No cookie cutter one size fits all here. They personalize your treatment needs. Your dignity and pride are intact and not stripped from you. You learn so much on a daily basis. It's nice to feel like your life is worth it."

HelpCureHD aims to help improve the quality of life for those affected by Huntington's Disease by contributing financial, emotional, and mental support while trying to find the cure.

THE PROBLEM

There is no cure for Huntington's Disease. Currently, there is a 50/50 chance a child could inherit the disease if a parent has HD in their family line.

There is a way to stop the gene from being passed on, through in vitro fertilization, or IVF. A procedure that implants embryos that do not have the HD gene can cost upwards of $25,000 - $30,000. This treatment is the only way parents who are at risk can guarantee their biological child will be HD-free.

OUR GOALS

- Provide the finances for families who are at-risk and in financial need and are willing to undergo IVF in order to stop the HD gene from being passed on in their family line.
- Our broader focus is to continue developing partnerships with fertility clinics across the country and raising funds to help cover these costs for many more families.
- HelpCureHD has already awarded over 130 families through its grant program. That is over 130 families and future generations that will NEVER have HD.

Active Science & Spectacular Scenery

Colorful rock formations at John Day Fossil Beds in Eastern Oregon, preserve a world class record of plant and animal evolution, changing climate, and past ecosystems that span over 40 million years. Exhibits and a working lab at the Thomas Condon Visitor Center, as well as scenic drives and hikes at all three units, allow visitors to explore the prehistoric past of Oregon and see science in action.

THE KAM WAH CHUNG MUSEUM & STATE HERITAGE SITE

A Chinese medical clinic, general store, community center and residence, This remarkable site includes a museum and a separate interpretive center. Built in 1865, possibly as a trading post and stage stop. This tiny, unassuming building became home to two Chinese immigrants, Ing "Doc" Hay and Lung On in 1888. Truly a time capsule offering a fascinating look into the Chinese experience in the old west and gold rush era.

FOREVER RIP CITY

REMEMBERING BILL SCHONELY
1929-2023

Known to many as "The Schonz," his more than 2,000 broadcasts carried the team through wins and losses, year after year — some that still resonate today.

The Schonz famously coined the phrase "Rip City" during the team's first season when the Los Angeles Lakers came to town for the first time.
